## Delta's dark digits

OPI's Lincoln Park After Dark shade appeared in concert on the fingertips of best-selling, award-winning Australian singer/songwriter Delta Goodrem, during her national *Believe Again Tour* across Australia this year. Most of Goodrem's songs are performed on the piano, and OPI's team of celebrity manicurists toured with her to ensure her hands and nails always looked perfect.

## Longoria and Lake get the OPI groove

*Desperate Housewives* star Eva Longoria and *It Happened In Vegas* actress Lake Bell received manicures finished off with OPI's South Beach Collection shades during New York Fashion Week. OPI was part of the Brand New You! beauty retreat hosted by celebrity fashion stylist and TV personality Robert Verdi at Luxe Laboratory.

Longoria chose Sand in My Suit, while Bell requested Done Out in Deco, an arty lilac. Other popular South Beach shades among the guests, who included fashion editors, celebs, and stylists, were OPI on Collins Ave, a sizzling red-orange and Miami Beet, a racy red-violet.

"The event was so successful that Eva Longoria was spotted at the beauty lounge on two separate occasions," says Suzi Weiss-Fischmann, OPI executive VP & artistic director.

"We're delighted that our OPI manicurists and nail lacquers finished the celebs' Fashion Week look in style."

## SASSY NAILS FOR SO SOLID CREW SHOOT

The *Scratch* team was invited backstage at the shoot for So Solid Crew's comeback video by beauty stylist, Chantal Porter.

Chantal, the daughter of beauty product entrepreneur Michelle Porter, was on hand with her team of techs to tame the talons and make up the multitude of models with dark, smokey eyes and glitzy, urban nails. Using a selection of products including China Glaze, Nubar, Professionails and Michelle Porter Beauty products, the team completed around 10 manicures and three full sets of nails in just three hours, including the nails of lead vocalist Lisa Maffia. The singer was made up with clear acrylics revealing black tips applied by Chantal's team member, Inga Lewin. "They look so good," says Lisa. "They're amazing, I love them!"
